Timberline Millwork & Supply signs with international distributor to strengthen, broaden offerings throughout Alaska

December 12, 2013, ANCHORAGE, ALASKA – INCOM Distributor Supply, a nationwide network of more than 500 commercial and industrial distributors, is pleased to welcome Timberline Millwork & Supply of Anchorage as its newest member. The move will enable the Anchorage-based, locally owned operation to now offer more than 67,000 items to businesses throughout Alaska beginning immediately.

Timberline has served the entire Alaska market since 2007, providing doors, windows and millwork to homeowners, contractors and property managers throughout the state. Its new partnership with INCOM greatly increases the breadth and depth of products available to Timberline's customers moving forward, said Shawn Norton, general manager.

"This new partnership enables us to provide complimentary items to what we are already providing contractors, maintenance supply operations and other businesses including government agencies," Norton said. "We are already providing doors, windows and millwork to some of Alaska's largest property managers, and now we can offer everything from power tools and hardware to other building materials such as HVAC supplies maintenance supplies. We are very excited about this partnership and the opportunities it creates for our customers."

In addition to greatly expanding the product selection, Timberline's customers will now be able to order directly on-line through its web site at www.tlineak.com, which will simplify and expedite the order process for their key customers.
